CIUDAD PARA EL DEPORTE

## **Sports Project - Event Objectives**

Santa Lucía Suresanta Sports Club has been working for several years as the only sports institution that promotes basketball in the municipality of Santa Lucía. Every year we try to achieve our fundamental objective of growing as a sports entity in all directions, covering a large number of children who practice the sport of Basketball from our initiation schools, our more than 15 federated teams, as well as in parallel activities such as our Basketball Campuses, Technification and our activities such as the 3x3 or Basketball without limits to integrate all athletes. We also collaborate with the Basketball Federations at an insular and regional level for different activities throughout the year.

This important and historic sports entity is currently led by young men and women from our municipality, eager to teach our children the best values through physical activity, understanding this learning as a process of social and interpersonal relationships.

It is for this reason, and because of our continuous desire to continue growing and improving our sporting offer, that this new project was born: **Basket International Tournament U-14 Santa Lucia - Gran Canaria**, whose fundamental objectives are none other than to give the opportunity to players of 14 years to participate and live an unforgettable experience, in what we hope will be in a very short time, the most important international basketball training event of our island (which currently has no similar offer), as well as our archipelago (which currently has no event of similar characteristics for the youngest).

Likewise, the name of our entity, as well as that of our municipality and our island will once again be placed on the billboard of Autonomous and National sport and in a short time on the international billboard, as this event is born with the interest of being maintained over time and become a great sporting training event.

Of course, as it cannot be otherwise, as it is an indivisible part of our sporting and social values, this event will be absolutely EQUAL, as both boys and girls of 14 years of age will participate equally in number and quality, bringing together 12 basketball teams (6 girls and 6 boys), grouping almost 160 men and women, many of them from different parts of the world.

Our proposal for this annual event, which will begin in 2023, is to hold it always on the first weekend of the carnival festivities, as it coincides with school holidays for many of the young people in our country, as well as in the rest of Europe, and is therefore a very good date to attract their parents to visit our municipality and our island.

The celebration of this first edition will take place **from the 17th to the 20th of February 2023**, where during these 4 days of competition, a total of 30 high level Basketball training matches will be played.

## Provisional Calendar

We are pleased to present a provisional calendar, which will be definitively closed as soon as our ten visiting teams confirm their arrivals and departures from our island. The thirty matches and their provisional distribution can give a clear picture of the magnitude of the event and its characteristics.

### CALENDARIO PROVISIONAL Torneo Internacional U-14 Santa Lucía - Gran Canaria

VIERNES 17 FEBRERO

DOMINGO 19 FEBRERO

Este es un calendario provisional, sujeto a modificaciones.

En el Torneo Internacional participarán 12 equipos, 6 de categoría infantil Femenino y 6 de categoría infantil Masculino. Se disputarán 30 partidos de Baloncesto, donde cada equipo disputará al menos 5 de ellos

## Basketball and Fun

Our island has a tremendously varied tourist offer of the highest level (many places to discover, impressive gastronomy to savour, and a culture and craftsmanship that will surprise you), which will be enjoyed by all those accompanying and participating in the event, which makes the attraction of this international activity impressive. For proof of this, we invite you to visit the official tourism websites of our island and our municipality.

<https://www.grancanaria.com/turismo/>  
<http://turismo.santaluciagc.com/>

## Sports Facilities

For an event of these characteristics, where twelve teams will participate, where together with our two boys' and girls' teams, there will be another fourteen squads, and where almost one hundred and sixty male and female athletes will participate equally, we believe that our municipality and its impressive facilities can be the ideal place for its celebration. 30 Basketball games will be played from Friday 17th February until Monday 20th February in the morning and afternoon, being the "Sports hall Los Llanos" the main sports hall where the event will be centralised, but with the necessary use of the "Sports hall La Unión" and the "First Sports Hall Santa Lucia", as well as an extra facility on Monday 20th February early in the morning.

## Organising Committee and Tournament Registration

For the organisation of this important event, which we hope will become an international model for training sports and grow every year, our sports entity will form an Organising Committee (with different responsibilities: transport, accommodation, facilities, Fan zone, press, social networks, etc...), where our board of directors and our technical staff, who are a guarantee of work and success will be of great importance, but which will also have external experts in different facets, where the parents of our players will have great participation and without doubt, the institutions and sponsors who will collaborate in it. In this way we will be able to attend to all the needs of the participating teams, so that their experience and visit to our island is fantastic.

To participate in the event, the REGISTRATION to the event will be free and it will be by express invitation of our entity to your sports entity. The expenses you will have to pay will be only the costs of accommodation and meals (**Approximately 60 Euros x person/day, 180 Euros x pax**), as well as those incurred for the transfer to our island. We are working to keep these expenses as low as possible and in this way help visitors to enjoy our international event.

Without further ado and being at your entire disposal for further information and for any other matter you may require and THANKING you in advance for your attention and cooperation, we send you our warmest greetings.
